

AQUA-PREP[®]

ENZYME SOLUTION

A specific blend of high-quality enzymes with non-ionic surfactants designed to increase the efficiency of naturally occurring microorganisms in reducing organic pond sediment (“muck”).

- Unique from others enzymatic products on the market due to its non-ionic surfactants and non-bacterial formulation
- Non-ionic surfactants penetrate organic “muck” exposing more area for enzyme activity
- Contains thousands of enzyme types from eight major groups
- Enzymes dramatically encourage naturally occurring and augmented (added) microbial populations to flourish and digest organic materials

Can tank mix with algaecides and herbicides during treatment

(See Additional Use Information and Precautions on Back Panel)

2.5-GALLONS (9.46 Liters)

MANUFACTURED FOR:

applied biochemists

MILWAUKEE, WI 53022

Note: Always dilute product prior to application. Disperse evenly. Do not exceed maximum listed application rate. Failure to dilute and disperse evenly, or exceeding application rate may cause fish mortality.

Treatment Directions (best when water 39° F or higher and properly aerated):

Keep out of reach of children

1. Wear proper safety equipment including rubber gloves and eye protection when handling or applying AQUA-PREP
2. Determine volume of lake/pond in acre-feet of water (1 acre-foot of water equals 1 surface acre or 43,560 square feet with an average depth of 1 foot, or 325,869 gallons)
3. Determine amount of AQUA-PREP required using the chart below
4. Dilute determined amount a minimum of 1 part AQUA-PREP to 9 parts water
5. Disperse evenly using a clean sprayer or other appropriate method
6. Apply maintenance amount two weeks after initial application and then every two weeks following

Lake/Pond Organic Content	Initial Application Gal./acre-foot	Maintenance Application Gal./acre-foot
High Content	0.5	0.5
Medium Content	0.5	0.33
Low Content	0.5	0.25

Safety: DOT Class 55 (Non-Toxic) (Non-Corrosive) (Chemical NOI) (Non-Hazardous)
EPA/TSCA-PMN: (Implicit Inclusion)
OSHA: Non-Hazardous 1910.1200

First Aid: Do not swallow or inhale product. Keep out of eyes.

If in eyes: Hold eyelids open and flush with a steady gentle stream of water for 15 minutes. Call a physician if irritation occurs.

If on skin: Wash with plenty of soap and water. Remove and wash affected clothing before reuse. Get medical attention if irritation occurs.

If swallowed: Drink promptly 2 glasses of water. Do not induce vomiting or give anything by mouth to an unconscious person. If spontaneous vomiting is inevitable, prevent aspiration by keeping victim's head below the knees. Get medical attention immediately.

If inhaled: Remove to fresh air. If breathing is difficult, have trained person administer oxygen. If respiration stops, have trained person administer mouth-to-mouth resuscitation. Get medical attention immediately. Wash hands prior to eating or handling food. For additional information, please refer to MSDS or call 1-800-558-5106.

Storage: Store in cool place out of direct sunlight. Temperatures below 32° F and above 120° F may impair product performance. Use within 12 months.
